June 5-9 2019

## Kiln casting with Silvia Levenson

This workshop will focus on the reproduction in glass of 3D objects by using the technique of kiln casting.

We will explore the different alternatives in terms of models, waxes, silicones and molds. We will also learn the ABC's of cold working.

[Silvia Levenson](#) is an artist who has spent years investigating the use of glass in contemporary art. Her works are part of several public collections, including the Corning Museum of Glass, USA, New Mexico Art Museum, Santa Fè, Houston Art Museum, Bullseye Collection, Portland (OR) USA, Museum of Altare, Ebeltoft Glass Museum, Denmark, to cite some.
